Saturday, Oct 3, 2020

9AM-1PM

10120 Woodlawn Blvd

Please use the QR code to the right to complete pre-registration questions. *Not required but encouraged to streamline testing.*

What to Expect

Step 1

A Q-tip-like swab will be inserted into your nose, similar to a flu test. It takes about 15 seconds and you may stop at any time.

The test is the Nasopharyngeal (NP) COVID-19 test and has a 70-80% sensitivity.

Step 2

Your sample is then sent to the lab for processing.

Step 3

You can expect your test results within 24-48 hours. Someone will call you if you test positive or they can be found online at MyChart.

Access info given to you during registration.

If you were tested because of symptoms of COVID-19 or may have been in contact with someone who is a confirmed case:

- Stay home for 14 days after your last contact with the person.
- Watch for fever (100.4F) and COVID symptoms.
- If possible, stay away from others.
